What goal is this solution appropriate for?

This strategy is suitable for the long-term goals of private investors where a specific, more predictable outcome is required. The private investor requires a high probability of achieving a specific capital amount at the end of a 5 year or longer investment horizon. The risk capacity for this goal and the long term investment horizon mean the private investor is willing to tolerate more short term volatility in an effort to achieve a higher return and capital amount at the end of the investment horizon. **Since March 2020, this fund has been aligned with an outcomes based approach.**

This solution is designed to deliver a return:

- which ranges between inflation and 4% above inflation over any 5-year rolling period
- of inflation or higher with an 90% probability over a 5-year investment horizon

Key Information

Fund Objective	To provide the investor with a moderate level of capital growth over the medium to long term.
Benchmark	(ASISA) South Africa MA Medium Equity
ASISA Category	South Africa - Multi Asset - Medium Equity
Regulation 28 Compliant	Yes
Portfolio Manager	Amity Investment Team
Inception Date	5 February 2008

Risk Profile

This portfolio holds more equity exposure than a low risk portfolio but less than a high-risk portfolio. The expected volatility is higher than a low risk portfolio, but less than a high-risk. The probability of losses is higher than that of a low risk portfolio, but less than a high-risk portfolio and the expected potential long-term investment returns could therefore be lower than a high-risk portfolio due to lower equity exposure, but higher than a low risk portfolio. Where the asset allocation contained in this MDD reflect offshore exposure, the portfolio is exposed to currency risks. The portfolio is exposed to equity as well as default and interest rate risks. Therefore, it is suitable for medium term investment horizons.

Fund Description and Investment Policy

Investments to be included in the Amity BCI Prudent Fund of Funds may comprise a combination of assets in liquid form, money market instruments, interest bearing securities, bonds, debentures, corporate debt, equity securities, property securities, preference shares, convertible equities and non-equity securities. The manager may invest in participatory interests or any other form of participation in other portfolios of collective investment schemes as the Act will allow from time to time, and which are consistent with the portfolio's investment mandate, or other similar schemes operated in territories with a regulatory environment which is to the satisfaction of the manager and trustee of a sufficient standard to provide investor protection at least equivalent to that in South Africa.

Max 75% equity exposure (incl. international equity). The portfolio will be managed in compliance with prudential investment guidelines for retirement funds in South Africa to the extent allowed for by the Act. The portfolio may time to time invest in listed and unlisted financial instruments. The manager may also include forward currency, interest rate and exchange rate swap transactions.

Fee Disclosure

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction costs calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2021, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 December 2021.

Effective Annual Cost: Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). BCI calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period. The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za. Access the BCI Privacy Policy and BCI Terms and Conditions on the BCI website www.bcis.co.za

#Monthly Fixed Administration Fee: R15 excluding VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied.
